

Instruction for authors

Journal of Research and Applied Biosciences is a multidisciplinary journal publishing papers of high quality in the field of biological sciences.

Types of articles

Research paper

Review paper

Research reports

Negative results

Short communications

Correspondence

Letters

Submit Manuscript: Manuscript can be submitted through email attachment at:

editorinchiefjrab@gmail.com

Manuscript preparation

The manuscript should be prepared in English language (British or U.S) using "MS Word".

Font: Times New Roman, size 12 point

Line space: 2, Authors can give line number which will help during peer review process.

Length of the Papers: The total length of the research paper should not exceed 10 pages.

Research Article have Title page (It includes, title of the manuscript; Authors name and affiliations and complete address for correspondence), Abstract (within 200 words), Key words (maximum 6), Introduction, Materials and Methods, Results, Discussion, or Results and Discussion, Conclusion, Acknowledgement (optional) and References.

Title: The title page should have paper title, author name and affiliations. Title page should contain title of the paper in bold letters. An asterisk (*) must be placed after the corresponding authors name as superscript whose email id, telephone number can be given.

Abstract: This section should address aim of the study, experimental methods, significant findings and conclusion. Avoid abbreviation in the abstract.

Keywords: Author(s) must give key words which can identify the most important subjects covered by the paper. They must be placed at the end of the abstract. Key word should differ from the title of manuscript.

Introduction: The manuscript should include the purpose of the investigation and relating the manuscript to similar previous research. Only information essential to the arguments should be presented.

Materials and Methods: This section should contain details about the protocols followed, instruments used, source of chemicals source and experimental details which allow viewers to reproduce the results. Authors should avoid detailed routine procedures. In this case, they should include related references.

Results: Authors should present result in a good manner. Authors can use maximum 8 display item (Table or graph or figure).

Discussion

Authors should precisely discuss the results. Avoid extensive discussion with the previously published results. Authors can combine both result and discussion.

Colour graphs and images

Authors can publish colour graphs without any charges.

Acknowledgement

Acknowledgement section can be used to acknowledge the help of those who do not qualify for authorship or to acknowledge funding, donated resources or significant contribution to the research.

References

This is the standard reference format for this journal.
